The exhibition “Ancient Egypt Transformed: The Middle Kingdom” is on view at The Metropolitan Museum of Art until January 24, 2016. This is the first comprehensive exhibition of a fascinating period in Egyptian history during which ideas about kingship, the relationship of the pharaoh and his people, the afterlife, and religion were rethought and reimagined. The exhibition features 239 objects and groups, including many masterpieces of the era that have never been seen in this country.
